SAFE HARBOR DISCLAIMERS

Forward-Looking Information

This presentation contains certain "forward-looking information" within the meaning of applicable Canadian securities legislation and also contains statements that may constitute "forward-looking statements" within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. Such forward-looking information and forward-looking statements are not representative of historical facts or information or current condition, but instead represent only Verano Holding Corp.'s (the "Company") beliefs regarding future events, plans or objectives, many of which, by their nature, are inherently uncertain and outside of the Company's control.

Generally, such forward-looking information or forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "strategies", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or may contain statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "will continue", "will occur" or "will be achieved". The forward-looking information and forward-looking statements contained herein include, but are not limited to statements or information with respect to the Company's position in the marketplace, proposed budgets and guidance, the proposed completion or buildout of Company facilities, the Company's cultivation capacity, the accretive nature of acquisitions, the fortification of the Company's presence in core markets, the possibility of material organic expansion, delivery of shareholder value and the ability to maintain industry-leading margins and add depth to leadership.

Forward-looking information and statements involve and are subject to assumptions and known and unknown risks, uncertainties, and other factors which may cause actual events, results, performance, or achievements of the Company to be materially different from future events, results, performance, and achievements expressed or implied by forward-looking information and forward-looking statements herein, including, without limitation, the risk factors discussed in the Company's filings with the U.S. Securities and Exchange Commission at www.sec.com/edgar, including, without limitation, the risk factors described in the Company's annual report on Form 10-K for the year ended December 31, 2023 and subsequent quarterly reports on Form 10-Q for 2024. The forward-looking information and forward-looking statements contained in this presentation are made as of the date of this presentation, and the Company does not undertake to update any forward-looking information or forward-looking statements that are contained or referenced herein, except as may be required in accordance with applicable securities laws. All subsequent written and oral forward-looking information and statements attributable to the Company or persons acting on its behalf is expressly qualified in its entirety by this notice regarding forward-looking information and statements.

Non-GAAP Financial Measures

This presentation refers to certain non-GAAP measures to evaluate the performance of the Company. The terms "EBITDA", "Adjusted EBITDA", "Adjusted EBITDA Margin" and "Free Cash Flow" do not have any standardized meaning prescribed within U.S. Generally Accepted Accounting Principles ("GAAP") and therefore may not be comparable to similar measures presented by other companies. Such measures should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. EBITDA is calculated herein as Net Income (Loss) before interest expense, income tax expense, depreciation, and amortization. The Company presents EBITDA on a consistent basis from period to period. Adjusted EBITDA is calculated herein as Net Income (Loss) attributable to the Company plus net interest expense, income tax expense, depreciation and amortization, and also excludes certain extraordinary one-time items. Adjusted EBITDA Margin is calculated herein as Adjusted EBITDA divided by Revenue. Free Cash Flow is calculated herein as Net Cash Provided by Operating Activities minus Capital Expenditures. Management believes that these non-GAAP financial measures provide useful information to readers as a supplement to reported GAAP financial information because these measures provide consistency and comparability with past financial performance and assist in comparisons with other companies, some of which use similar non-GAAP information to supplement their GAAP results. Management reviews these non-GAAP financial measures on a regular basis and uses them to evaluate and manage the performance of the Company's operations. These measures should be evaluated only in conjunction with the Company's comparable GAAP financial measures and reconciliations of each non-GAAP measure to its most directly comparable GAAP measure can be found on our website at investors.verano.com and in the appendix of this presentation.

RESULTS DRIVEN: 2Q 2024 FINANCIALS

VERANO™

2Q 2024 FINANCIAL RESULTS

- Retail / wholesale revenue split of 64% / 36% for the quarter¹
 - Steady increase in proportion of sales from wholesale business is a welcomed evolution
- Gross profit margin of 51% increased over 220bps versus the prior year period
 - Increased gross profit margin driven by higher third-party wholesale sales

\$USD thousands	2Q 2024 Results
Revenue	\$222,390
Gross Profit	\$114,340
Income from Operations	\$27,266
(Net Loss)	\$(21,764)
Adjusted EBITDA	\$70,599
Adjusted EBITDA Margin	32%

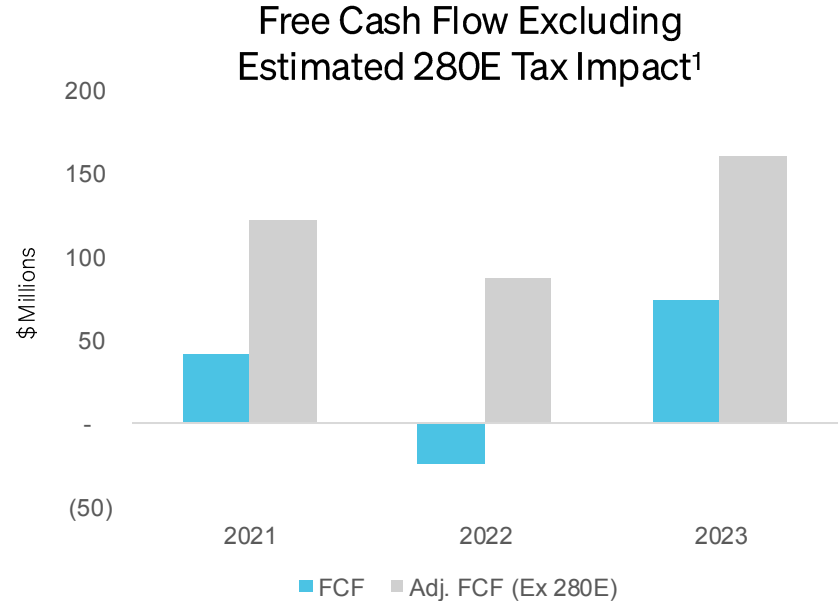

LEVERAGING THE BALANCE SHEET FOR THE FUTURE

- Raising 2024 CAPEX guidance to 90-130 million
 - Preparing for possible adult use program in Florida and for some investments in to be acquired Arizona and Virginia operations¹

\$USD thousands	As of June 30, 2024

Total Liabilities	\$1,017,661

INDUSTRY LEADING CASH FLOW

- Industry-specific 280E tax code depresses true cash flow generation potential as, generally, only COGS is tax deductible
- In the event Verano becomes a normal tax filer with federal regulatory change, this would substantially improve cash flow generation
- Over past four years, Verano incurred **\$300+ million** of excess 280E tax burden¹
- Removal of the 280E tax burden would enhance our already strong cash flow generation and provide significant investment and capital allocation optionality

For illustrative purposes only

¹ Estimate based on FY 2023 financial results in which the Company estimates it would have incurred \$80 million less in income tax expense given its likely ability to take standard business deductions once it is not subject to the 280E tax code. Historical Free Cash Flow estimates calculated using a traditional federal and state tax scheme against net income. Free Cash Flow is a Non-GAAP number the Company defines as Net Cash Provided by Operating Activities minus Capital Expenditures. Reconciliation for Free Cash Flow can be found in the financial results released on 2/29/24 at investors.verano.com in the Newsroom.

A STANDOUT ADJUSTED EBITDA¹ PROFILE

- Top 4 MSO by revenue
- Achieving growth both organically and through M&A
- Scale allows for operational efficiencies, more profitable cultivation and the ability to quickly adapt to changing legislation

FY 2023 Adjusted EBITDA Margin²

¹ Adjusted EBITDA Margin is a Non-GAAP number the Company defines as income attributable to the Company plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items. Reconciliation for Adjusted EBITDA can be found in past quarterly financial results at investors.verano.com in the Newsroom. Adjusted EBITDA is based on calculations done by each individual company, and may be calculated differently than how the Company calculates Adjusted EBITDA. Adjusted EBITDA profile based on Company Adjusted EBITDA margin. ² Peer set includes the largest MSOs by revenue.

LEGISLATIVE OUTLOOK

Encouraged by DEA News

On April 30, 2024, news leaked that the Drug Enforcement Administration plans reclassify cannabis to Schedule III, from Schedule I.

Next step entails a review from the Office of Management and Budget followed by a comment period.

- Recent Ohio adult-use referendum underscores Americans' support for the issue¹
- Continuing our work to ensure we are well positioned for the possibility of entering the US capital markets
- Filed lawsuit against Attorney General alongside coalition of operators and investors, asking U.S. federal court to declare the Controlled Substances Act does not apply to state-legal cannabis businesses

ON THE ROCKS

HERITAGE, REDEFINED.

On The Rocks is a cannabis collection defined by solventless extraction methods that date back thousands of years. Dry sift and ice water capture the essence of flower by collecting its cannabinoid- and terpene-rich trichomes. These trichomes are then refined in small batches and hand-crafted to extract the purest expression of the plant. No solvents or embellishments...it's cannabis, On The Rocks.
